Documentation & System Design

Soft Skills:

Communication & Teamwork

Critical Thinking

Time Management

Profile

I am a dedicated and goal-driven **BSIT student** from **Batangas State University – The National Engineering University (Mabini Campus)** with a strong enthusiasm for **web development, database systems, and software technology**. I have experience in creating responsive websites, managing structured databases, and developing small-scale systems and desktop applications. I am skilled in **front-end technologies** such as HTML, CSS, and JavaScript, and have working knowledge in **SQL and Google Cloud**. I also have a growing interest in **Python automation** and **system documentation**. My academic background and hands-on projects have enhanced my **problem-solving abilities, attention to detail, and teamwork skills**.

I am eager to contribute to a professional environment where I can apply my knowledge, learn new technologies, and collaborate on innovative projects that improve efficiency and user experience.

Projects

Personal Portfolio Website — Designed using HTML and CSS to showcase projects and skills.

HELMSify - Desktop Notifier — Python desktop app using Plyer for real-time notifications.

VEELATSALVANIA - Hostel Management System — System for managing room assignments, payments, and student records efficiently.

Simple Calculator — JavaScript-based calculator for basic mathematical operations.

Responsive Landing Page — Mobile-friendly website layout for tourism promotion.

Additional Information

Strong interest in software development and web design. Passionate about learning new technologies and improving user experience.
